

WCC Billet Door Panel Reflector Covers **INSTRUCTIONS**

Preparation: None

You will need a flat head screwdriver or similar to pry off your existing door reflector.

Step One: With flat head screwdriver or similar, carefully pry off your existing door panel reflector. (See Figure 1).

Step Two: With flat head screwdriver or similar, carefully pry off the small metal clip that is attached to the back of the stock door panel reflector (See Figure 2).

Step Three: Take the metal clip that you removed and place it securely onto the matching area on your new Billet Reflector Cover (See Figure 3).

Step Four: Carefully fit your new Billet Door Reflector into place as shown in Figure 4.
